

BioStream *Foamable HE* is a High Efficacy super concentrated enhanced two-fold activity formulation utilizing a Multi-Bacillus spore blend. The chemical components instantly bind to the source of odor molecules, preventing their release, while the bio-enzymatic activity remains, providing a long-lasting odor control and hungry bacteria.

BioStream *Foamable HE* is a stable, multi-spore culture that provides superior degradation of various organic compounds including proteins, starches, carbohydrates, cellulose, urine, fats, oils, greases and other organic substances.

Use with confidence but do not apply directly on food preparation surfaces or food storage areas. Use a disinfectant and wash all food surface areas if contaminated before reuse.

Recommended Usage: BioStream *Foamable HE* can be applied as a concentrate using a trigger sprayer directly attached to the bottle or any foam generation equipment; BioStream *Foamable HE* is also compatible and can be used in combination with many products. Follow other manufactures foam label instructions, if unsure of use: call your supplier for details.

BioStream's superior foaming performance carries the product to all areas such as: drains, wall voids, cracks, cervices, dumpsters and many other areas requiring complete treatment of all vertical and horizontal surfaces.

NOTICE: Carefully follow all directions. All information on the use of this product is believed to be reliable. Mixtures with other chemicals and equipment used are beyond the control of the manufacturer and seller. Buyer assumes all risks in use, storage and handling of this material. All use must be in strict accordance with label directions.

In no case shall the manufacturer or the seller be liable for consequential or indirect damages resulting from the use of or handling of this product. The buyer assumes all risk and accepts this as a condition of sale. No other warranty is expressed or implied.

BioStream

Foamable HE

450 mls (15 oz.)

MIXING GUIDELINES:

Use 3 oz per gallon of water

25 mls per liter

Foam expansion rates will vary depending on equipment used, water pH and temperature.

STORAGE AND CONTAINER DISPOSAL: Store in closed areas and in original container. Use caution when moving, opening or pouring. Triple rinse (or equivalent). Dispose of in a sanitary landfill, or use other procedures approved by state and local authorities. Offer for recycling where available.
