NET CONTENTS: 5 g

**DIRECTIONS FOR USE
RESTRAINTS:**

DO NOT allow contact with food, livestock feed or their water.

SITUATIONS	PEST	RATE/Bait	CRITICAL COMMENTS																
Domestic, commercial, industrial and public buildings: - including food processing establishments, shops, factories, ships, offices, schools, storerooms, hospitals, barracks, private houses and external areas associated with such establishments.	Cockroaches including American, German and Oriental, Ants	Low: 0.05 g Medium: 0.075 g High: 0.15 g (See table in CRITICAL COMMENTS for details)	<p>Apply thoroughly to all areas where these pests crawl and hide, especially in cracks and crevices, voids and hidden surfaces around sinks and storage areas, behind baseboards, around doors and windows, cabinets, stoves, behind refrigerators and in attics and crawl spaces. For void applications, insert application straw into the void and dispense bait for 2 to 8 seconds. For smaller voids, or light infestations, use the lower end of the specified rate range. For large voids, or heavy infestations, use the upper end of the specified rate range.</p> <p>Outdoor treatments for control of ants: Inject into cracks and crevices around windows and doors, porches, screens, eaves, patios, garages, under stairways, in open crawl spaces, and under siding or exterior construction elements and other areas where insects may be nesting.</p> <p>Application rate: The amount to be applied will vary with the site, species of cockroach and level of infestation. Concentrate treatment at insect activity sites. For light infestations a minimum of 5-7 bait points are recommended per 10 m². For heavy infestation, a minimum of 10 – 20 bait points are recommended per 10 m². Check bait placements regularly and reapply when necessary. Bait dispenses at a rate of 0.02 gram per 1 second of trigger activation time. Each cartridge/canister contains 5 grams of bait and will provide between 33-100 bait placements per cartridge/canister depending on the application time.</p> <table border="1"><thead><tr><th>Rate</th><th>Amount of product applied</th><th>Amount of time to Actuate trigger (seconds)</th><th>Total number of placements in 5 g cartridge</th></tr></thead><tbody><tr><td>Low</td><td>0.05 g</td><td>2.5</td><td>100</td></tr><tr><td>Medium</td><td>0.075 g</td><td>3.75</td><td>67</td></tr><tr><td>High</td><td>0.15 g</td><td>7.5</td><td>33</td></tr></tbody></table>	Rate	Amount of product applied	Amount of time to Actuate trigger (seconds)	Total number of placements in 5 g cartridge	Low	0.05 g	2.5	100	Medium	0.075 g	3.75	67	High	0.15 g	7.5	33

High	0.15 g	7.5	33																

NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION

GENERAL INSTRUCTIONS

This product is intended for application with the supplied applicator intended for use with dry flowable baits to hiding and runway areas and those places where pests are found. Apply insecticide directly into cracks and crevices. Apply lightly and uniformly to infested areas. Pay particular attention to cracks and crevices, service ducts, false floors and ceilings, wall voids, around electrical and telephone fittings and equipment, around water and sewer pipes, under and behind cabinets, refrigerators and sinks, around window and door frames, and in attics and crawl spaces. Any powder visible after application must be brushed into cracks and crevices or removed.

Applicator Instructions for the Precision Delivery System™ (PDS):

1. Insert the battery into the Precision Delivery System prior to loading dry flowable products.
2. To insert the 9V battery, unscrew the small screw on the back ledge/underside of top of the PDS unit. The top cover will lift off. Place the 9V battery into the housing as indicated and replace the top cover. Tighten the cover back down with the screw.
3. To load bait into the Precision Delivery System (PDS), remove bait cartridge from packaging and unscrew the lid. Firmly screw the bait canister into the underside of the PDS. Be sure to keep the bait cartridge upright to prevent spillage, and do not over tighten. Retain the cartridge lid for storage after application is complete.
4. Insert the appropriate application straw into the opening on front of the PDS. Do not use PDS unit without an application straw.
5. Move the switch, located on the back of the PDS to "on."
6. To dispense bait, insert the appropriate application straw into the desired crack, crevice or void. Depress the trigger for the appropriate amount of time. The trigger can be held down to dispense a continuous flow of bait material into a large void if necessary.
7. To replace an empty bait cartridge, unscrew the used cartridge and dispose of it as directed.

INSECTICIDE RESISTANCE WARNING

For insecticide resistance management DOXEM PRECISE®

GROUP 22A INSECTICIDE

Insecticide is a Group 22A insecticide. Some naturally occurring insect biotypes resistant to DOXEM PRECISE® and other Group 22A insecticides may exist through normal genetic variability in any insect population. The resistant individuals can eventually dominate the insect population if DOXEM PRECISE® or other Group 22A insecticides are used repeatedly. The effectiveness of DOXEM PRECISE® on resistant individuals could be significantly reduced. Since occurrence of resistant individuals is difficult to detect prior to use, Adama Australia accepts no liability for any losses that may result from the failure of DOXEM PRECISE® to control insects. DOXEM PRECISE® may be subject to specific resistance management strategies. For further information contact your local supplier, Adama representative or local agricultural department agronomist.

PRECAUTIONS

Before use, remove or cover all exposed foodstuff. Also cover all dishes and utensils and surfaces where food is prepared or stored. DO NOT allow product to contact food, food preparation surfaces and utensils. When used in indoor situations, immediately clean up any exposed product that is not within the treated cracks, crevices, harbourages or treatment holes.

PROTECTION OF WILDLIFE FISH, CRUSTACEANS AND ENVIRONMENT

DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

STORAGE AND DISPOSAL

Store in the closed, original container in a dry, cool well-ventilated area out of direct sunlight. Tap and completely empty any remaining product into new cartridge and attach the new cartridge to the Precision Delivery System. If recycling return clean container to recycler or designated collection point. If not recycling break, crush, or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant local, state or territory government regulations. Do not burn empty containers or product.

SAFETY DIRECTIONS

May irritate the eyes, avoid contact with eyes. Wash hands after use.

FIRST AID

If poisoning occurs contact a doctor or Poisons Information Centre. Phone Australia 131 126; New Zealand 0800 764 766.

SDS

Additional information is listed in the safety data sheet (SDS). A safety data sheet for DOXEM PRECISE® is available from adama.com or call Customer Service on 1800 423 262.

CONDITIONS OF SALE

The use of DOXEM PRECISE® Insecticide being beyond the control of the manufacturer, no warranty expressed or implied is given by Adama Australia regarding its suitability, fitness or efficiency for any purposes for which it is used by the buyer, whether in accordance with the Directions for Use or not. Adama Australia accepts no responsibility for any consequence whatsoever resulting from the use of this product.
