Nitrosol

Liquid Plant Food

- Nitrosol is the ideal fertiliser for all garden and indoor plants. Nitrosol has been a favourite of Australian gardeners for over 40 years. Its unique formulation provides the benefits of blood and bone and natural growth stimulants in an easy to use liquid form.
- Nitrosol provides an effective balance of major and minor plant nutrients and minerals and can be absorbed through plant leaves as well as through the roots.
- Nitrosol enhances soil fertility by encouraging beneficial soil micro organisms.

Directions for Use: SHAKE WELL BEFORE USE. (Measuring cap holds 48 ml)

Gardens: Mix 40 mL of Nitrosol Liquid Plant concentrate in a watering can. (9-10 litres). Apply 1 watering can per square metre of soil area. Apply monthly during active growing periods.

Pots: Mix 40 mL of Nitrosol Liquid Plant concentrate in a watering can. (9-10 litres). Water pots heavily with the Nitrosol solution until liquid starts to drain from the bottom of the pot. Apply monthly during active growing periods. Apply monthly at half strength during winter months.

Minimum Analysis

Total Nitrogen (N) %	12.3	Total Potassium (K) %	13.1
N as ammonium	5.0	K as nitrate & phosphate	9.4
N as organic	1.1	K as sulphate	3.7
N as urea	4.8	Total Calcium (Ca) %	1.3
N as nitrate	1.4	Ca as bone	0.5
Total Phosphorus (P) %	1.9	Ca as nitrate & phosphate	0.8
P as water soluble	1.5	Sulphur (S) % as sulphate	7.3
P as citrate soluble	0.4	Plus Trace Elements	

Nitrogen: Phosphorus = 6.5

Safety: Avoid contact with eyes. If eye contact occurs flush eyes under running water. If irritation occurs seek medical advice.
