

PROTECT·A·BED®

**BED BUG BITE-PROOF
MATTRESS OR
BED BASE ENCASEMENTS**

**Sleep tight, don't let
the bed bugs bite!**

Prevent & Stop bed bugs
from entering & escaping
your mattress or bed base

MATTRESS AND BED BASE ENCASEMENTS

Bed bug infestations are a serious problem that can cause a variety of health concerns. PROTECT•A•BED® BugLock® encasements provide an effective barrier to bed bug infestation.

BugLock® protects your mattress and bed base investment & most importantly ones health. BugLock® Encasements have been independently lab tested & scientifically proven to be completely bed bug proof, using a patented BugLock® enclosure system that incorporates a sealed safety trench that is stitched around the typically vulnerable zipper clasp as well as, micro-zipper teeth for an extra tight closure. PROTECT•A•BED® BugLock® Encasement is a valuable tool in the fight against bed bug infestations. It will save you both time & money, by drastically reducing the amount of effort associated with addressing infested bedding.

- Protects new bedding & salvages infested bedding
- Suitable for both mattress & bed base encasements
- Increases time between re-infestations
- Aids in early detection of bed bugs
- Decreases the scope of the re-infestation
- Less time spent onsite addressing bedding means lower labour costs
- Entry Proof & Escape Proof
- Warm machine wash & tumble dry
- Non iron

WITH  **BUG LOCK® ***
 BugLock® 3-sided zipper system and ALLER-ZIP® seal for complete protection against allergens, dust mites and bed bugs. Bug entry, escape and bite proof. *BugLock® patent pending
