HANDY HINTS WHEN SPRAYING KAMBA M

Do not use on Lippia

For best results

Do not mow turf for at least 2 days before or after application.

Do not spray when rain seems likely to occur within 4 hours.

Do not spray when weeds are wet with dew or rain.

Do not spray if soil fertility is low or if soil is water logged.

Do not spray weeds under stress (heat or water logging etc).

Only spray actively growing weeds.

Ensure thorough wetting of all weed foliage.

Do not fertilise turf for 2 weeks after spraying.

Think about spraying safely

Do not spray during windy conditions.

Do not allow spray to contact any non-target plants.

Do not apply over root zones of non-target plants.

Think about clean-up after spraying

Thoroughly rinse and clean application equipment after use.

Follow label directions for safe handling, storage and disposal.

ALWAYS READ THE LABEL
